TrinDocs and Nuvei Partner to Advance B2B Payments and AP Automation

July 14, 2025 – TrinDocs, a leading provider of document management, workflow automation, and AP automation solutions, today announced it has become a Nuvei Integrated Software Vendor (ISV) partner.

Through this partnership, TrinDocs has securely integrated Nuvei payment processing technology into its TrinPay platform, providing businesses of any size access to enterprise-level payments solutions through a single, seamless integration. Nuvei's modular platform powers critical payment functions including onboarding, pay-ins, payouts, reconciliation, fraud prevention, and risk management, delivering a seamless end-to-end experience for finance professionals.

"We're proud to partner with Nuvei to simplify vendor payments and complete TrinDocs' procure-to-pay automation platform," said **Jeremy Prichard, Sr. Director of Sales and Marketing at TrinDocs.** "Together, we're making it easier for SMBs across North America to scale growth and transition to paperless processes."

"Our partnership with TrinDocs reflects Nuvei's commitment to advancing smarter, more secure B2B payments," added **Ben Weiner, Global Head of Partner Channel at Nuvei.** "By integrating our flexible technology into TrinPay, we're helping SMBs streamline AP automation, eliminate manual processes, and improve cash flow, without disrupting existing ERP workflows. Together, we're making it easier for businesses to reduce invoice processing times, automate vendor payments, and strengthen supplier relationships in today's complex supply chain through a seamless, scalable solution."

Nuvei empowers Independent Software Vendors (ISVs) with a secure, modular payments platform built for integration into vertical-specific business applications. With deep expertise in B2B payments, Nuvei helps ISVs modernize finance workflows, reduce payment friction, and unlock new revenue opportunities. By embedding Nuvei's flexible technology directly into their platforms, ISVs can enable their customers to scale more effectively and compete in today's digital-first economy.
